

U.S. Application for Engine Builder/Installer Membership

Eligibility Guidelines

Engine Builder/Installer. An individual, partnership, or corporation which assembles and/or removes and replaces new or rebuilt engines as a unit, or components such as cylinder heads. The primary business is serving the automotive, truck, tractor, marine, diesel and other classes of retail, industrial and commercial accounts and that does not primarily sell used parts (which term does not include remanufactured parts) in his or her main place of business.

1. Please remit a sheet of company letterhead, company business card or company invoice with application.
2. If your business meets the above criteria, please fill in all applicable blanks below (print or type)

Previously, AERA members were required to purchase PRO-SIS software for a fee of \$499 and pay a \$249 fee for annual support. **NOW**, we're giving the software to you **FREE** - all you will be required to pay is the \$249 annual support fee. You will have **180 days** to use and try out the software. At the end of that period the support fee is due. If the fee is not paid, the software will become non-functional.

YES!! Please send me the free PRO-SIS software

Please check appropriate category(ies) for listing in the AERA Membership Directory
