ONLINE TRAINING & CERTIFICATION PROGRAM

CERTIFIED CYLINDER HEAD MACHINIST
CERTIFIED ENGINE MACHINIST

LEARN • DEVELOP • IMPLEMENT • GROW • ADVANCE
About the Program

Each program is an online, self-paced course with up to one year to complete. You have the option of including Gary Lewis’ book, Automotive Machining & Engine Repair, with your registration fee. Everything a technician will need is contained in the program with video clips and supplemental readings at key locations within the program. The book will be used as a syllabus when not online. Each chapter will be followed by a multiple choice test. There will be a final exam for each certification, Cylinder Head Machinist and Engine Machinist.

The information in this program is presented from the view of engine machine shop operations. Basic procedures are selected from those with wide industry acceptance and represent well-balanced and competent “state of the art” practice.

– Gary Lewis, Instructor and Author

SELECT ONE:

☐ CERTIFIED CYLINDER HEAD AND ENGINE MACHINIST  ☐ CERTIFIED CYLINDER HEAD MACHINIST

Most choose to become certified in two courses, Cylinder Head Machinist and Engine Machinist. However, you may also choose to become certified in only one course: Cylinder Head Machinist. You must pass the Cylinder Head Machinist course in order to advance to the Engine Machinist course. Price is the same for either option.

Become an AERA Certified Cylinder Head and Engine Machinist

**BENEFIT TO THE SHOP OWNER**
Knowing that a prospective employee holds an AERA certification as a Cylinder Head Machinist and Engine Machinist increases your likelihood of hiring a productive and trainable shop technician. A new hire with an AERA certificate improves your chance of hiring and keeping qualified shop personnel.

**BENEFIT TO THE TECHNICIAN**
An AERA certificate of completion means you have successfully finished a difficult program designed to teach and test detailed skills and practices of an operating engine machine shop. It elevates your status and chances of hire with prospective employers looking for qualified, teachable employees.

**BENEFIT TO THE SCHOOL**
AERA’s Engine Machinist Certification Program is an online, self-paced course with up to one year to complete. This program allows the instructor to set goals, timelines, and view results by tracking student progress, giving both student and instructor more flexibility for valuable shop time.
